강제종료

```
enock@enock-PC: ~  
enock@enock-PC:~$ sudo shutdown -h now
```

Linux Clean Shutdown

Examples:

\$ sudo shutdown -h now

\$ sudo shutdown -r now

\$ sudo shutdown -h 12

shutdown.py > ...

```
1  import os
2  import random
3
4  answer=random.randint(0,9)
5  a=input(">>>")
6
7  if a != answer:
8      os.system("sudo shutdown -h now")
9  else:
10     print("correct")
11
12
```

HDCP Error Detected

To play this content, all HDMI connections must support High-bandwidth Digital Content Protection (HDCP).

Try the following steps to resolve this issue.

Note: if you have an A/V receiver connected to your Roku player, perform the steps on it rather than on your TV.

1. Unplug the HDMI cable from both your Roku player and TV.
2. Turn off your TV and unplug the power cords for your Roku player and TV.
3. Reconnect each end of the HDMI cable firmly.
4. Reconnect the power cords for each device and turn on the TV.
